Bottom Navigation

Bottom Navigation

A bottom navigation element is placed at the bottom of the screen with buttons to move to other screens.

Anatomy

The diagram illustrates the anatomy of a bottom navigation bar. It shows a horizontal bar with three buttons. The first button is labeled 'Selected' and has a house icon. The second button is labeled 'Enabled' and has a folder icon. The third button is labeled 'Disabled' and has a plus icon. Four numbered circles (1, 2, 3, 4) point to different parts of the bar: 1 points to the container, 2 points to the icon button, 3 points to the icon, and 4 points to the text (optional).

slot

- Three patterns are available with different icon options: icon+text, text only, and icon only we recommend you use the icon+text pattern.
- Use icon only pattern only for the icons that can be understood intuitively.
- You can use slots to add elements other than those in the specified patterns (e.g., images, graphics).

Enabled

Enabled

Disabled

- Three column types are available and it is recommended to use the default types without arbitrarily changing them.

States

Selected

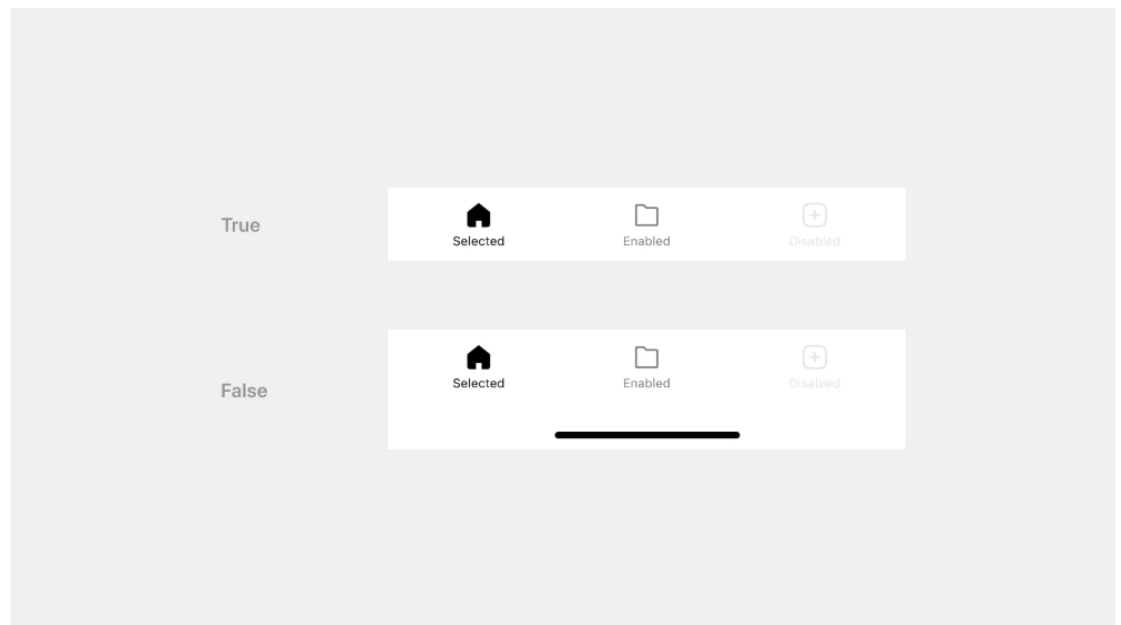

Enabled

Disabled

- Available in three states: selected, enabled, and disabled.
- We recommend you use solid for icons in the selected state and regular for those in the enabled state.
- Use the disabled state color (ldsg-color-disabled-gray, #E4E4E4) for the disabled state regardless of the enabled state color.

Home Indicator

Select whether to provide home indicator.

Use this option when designing a screen for devices that have the Home indicator (375x812 or larger).

Badge Option

None

Dot Badge

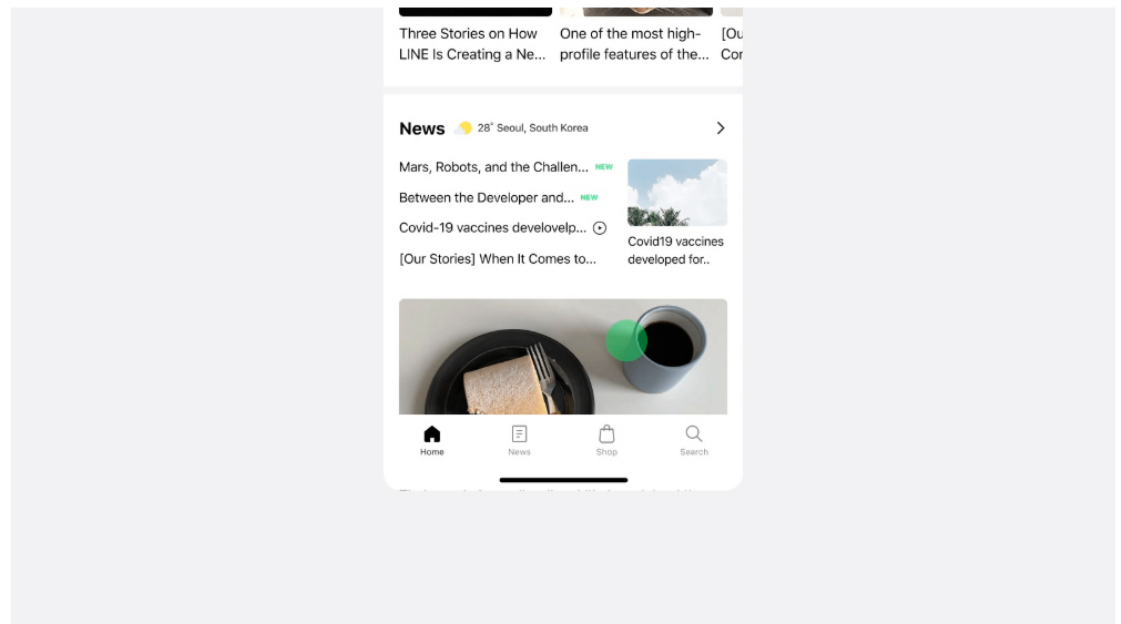

Number Badge

You can use the badge option to indicate the update status.
For more information, see the [Badge page](#).

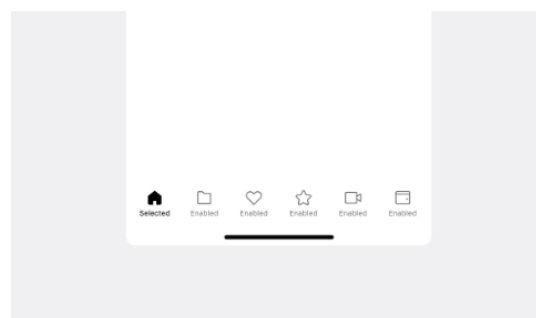

Option Name	Description
None	This option is used by default.
Dot Badge	Used when there is an update on the existing menu or service.
Number Badge	Used for the features that can count the new updates. Numbers, 1 to 999, are displayed inside the circular badge. Numbers greater than 999 are shown as '999+'. The width of the badge container automatically changes depending on the length of the number.

Behavior

Fixed at the bottom of the screen.
It does not disappear even when the screen is scrolled up/down.

Usage

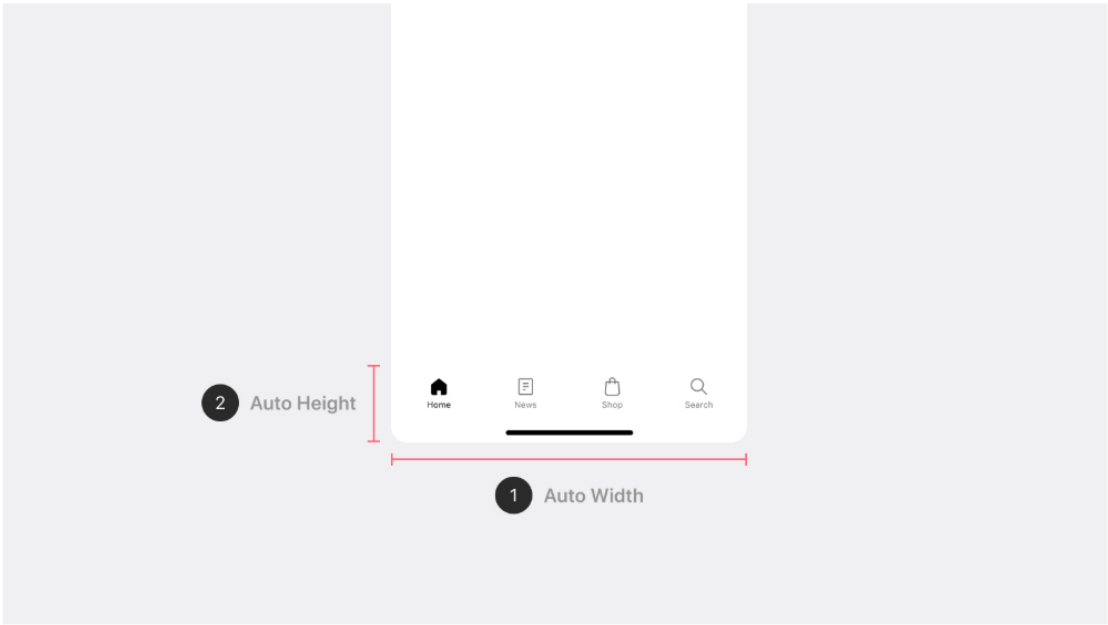

Don't

Do not use more than five menus. Bottom navigations do not use a left/right scroll.

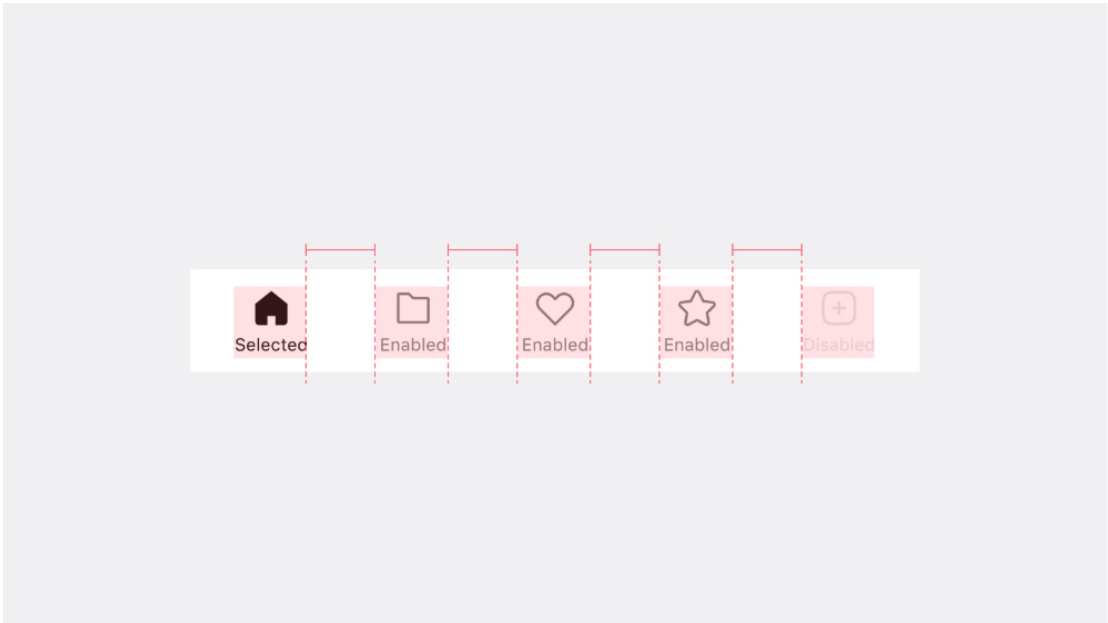

Design Specs

Resizing

	Value	Description
1	Auto Width	The width is automatically adjusted depending on the screen width. (100% of the screen width)
2	Auto Height	You cannot change the height yourself. It is determined depending on the icon and text options.

Spacing

Use the same spacing between buttons.
For more information on icons, see the Usage section in Icon Button.

Styles

Element	Properties
1 Container	- Width: Flexible Width, 100% - Height: Auto - Background Color: Changeable - Default: Idsg-color-white
