Bottom Navigation

Bottom Navigation is configured as the key features in the app for fast and easy user access.

Anatomy

1. Icon

Display content of the tab as an icon.
Unselected icons can be classified into solid and stroke types.

2.Text Label (Optional)

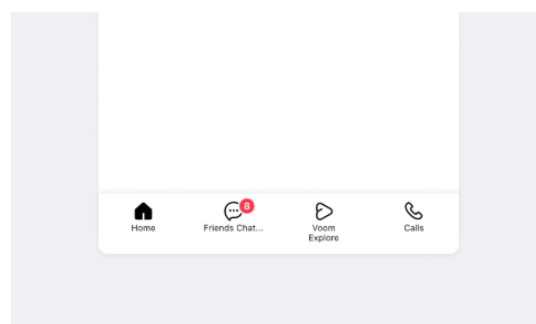

Display the text label on the tab.

3. Badge area

Display badge if there is new content in the tab.

4. Container area

This is the background area of the bottom navigation.

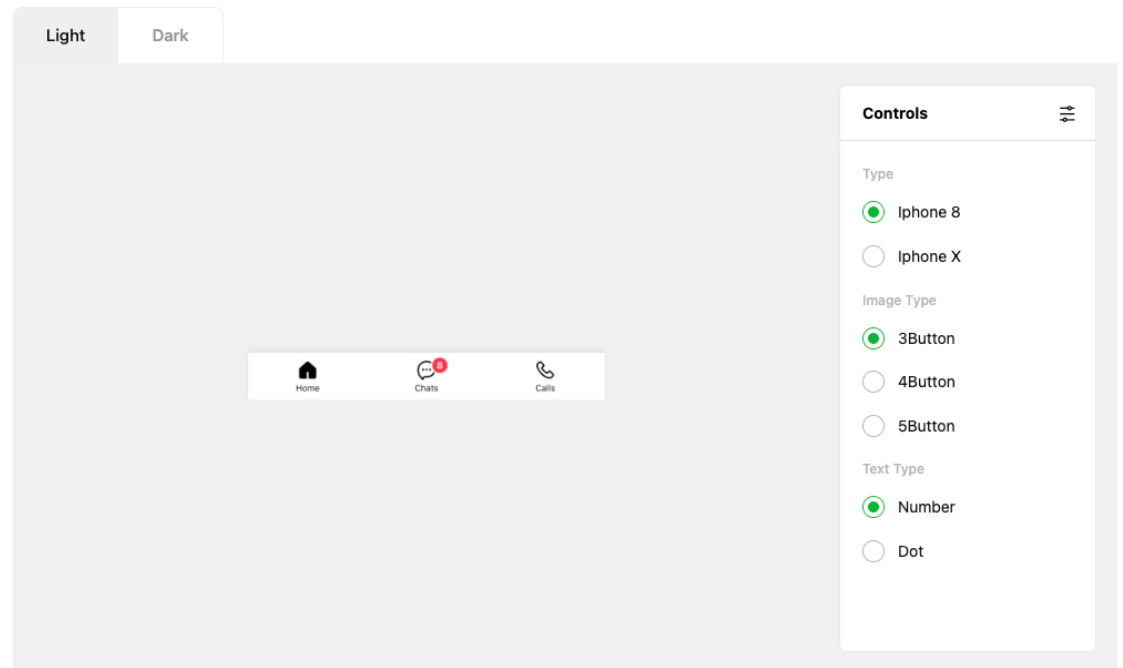

Don't

Text label must be brief to prevent displaying as ellipsis or two lines.

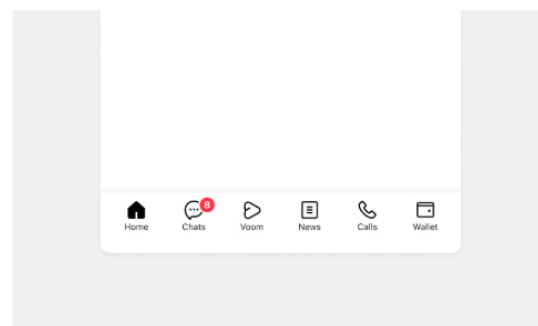

Types

Bottom navigation is provided as a single type.

- It is recommended to configure three to five bottom navigation menus.
- You can expose the update status using badge on the menu icon of the bottom navigation.

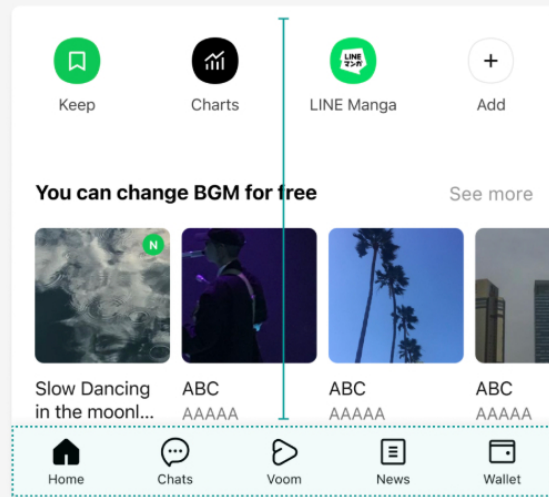

Usage

Don't

Menus accessible from the bottom navigation must not exceed five. Use tab if it must exceed five.

Placement

- Place at the very bottom section of the app screen.
- It is fixed to the screen and does not disappear even after scrolling.
