

Must items: WCAG 2.1 Level A / Should items: WCAG 2.1 Level AA / Consider items: WCAG 2.1 Level AAA

How to measure contrast ratio

Measure the contrast ratio using the LINE Colors Table or Contrast Figma Plugin.

LDS Color palette (work in progress)

When you hover your mouse cursor over a color on the LDS Color Palette, the contrast ratio will be displayed with the Hex code. L is the contrast ratio with the background color of Light Mode (White, #FFFFFF), and D is the contrast ratio with the background color of Dark Mode (Gray 900, #111111).

Contrast figma plugin

You can measure the contrast ratio using the Contrast Figma Plugin.
