Label

Label

Label

Select from contained, outlined and slot types in consideration of a given design style and situation. You can use another image or graphic element instead of an icon with the slot type. Use LAICON for icons. Refer to [Icongraphy](#) for more information.

Label

Label

Label

Label

Label

Label

Label

Label

Four types of states available with enabled and disabled only supported in the component library. Use \$ldsg-color-disabled-gray(#E4E4E4) for the disabled state.

Size

S (32)

L (52)

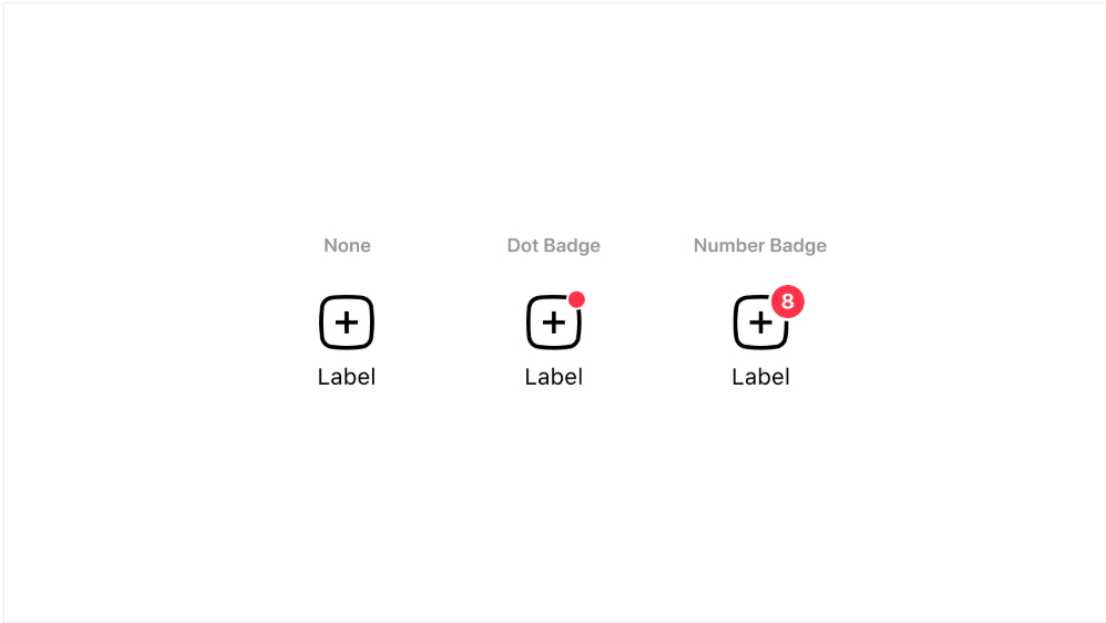

Label

Label

Two sizes available. It's recommended to use one of the provided sizes.
You can use an icon without a label if the icon is self-explanatory as a straightforward metaphor.

Badge Option

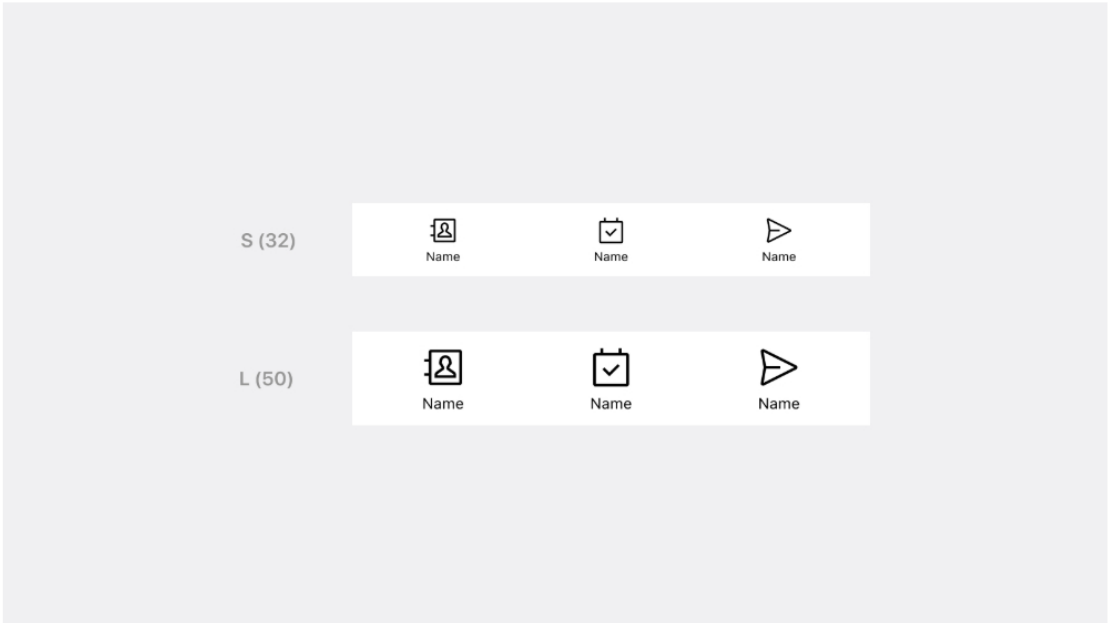

You can use a badge option.
Refer to the documentation on [Badge](#)for more information.

Option Name	Description
None	• Provided as default where the badge option is not used.
Dot Badge	• Used to display a status update for an existing menu or service.
Number Badge	• Used to display the count of updates. • Numbers from 1 to 999 placed within the circular badge. • '999+' for any update count bigger than 999. • Badge container width automatically adjusted for the given count.

Icon Button Group

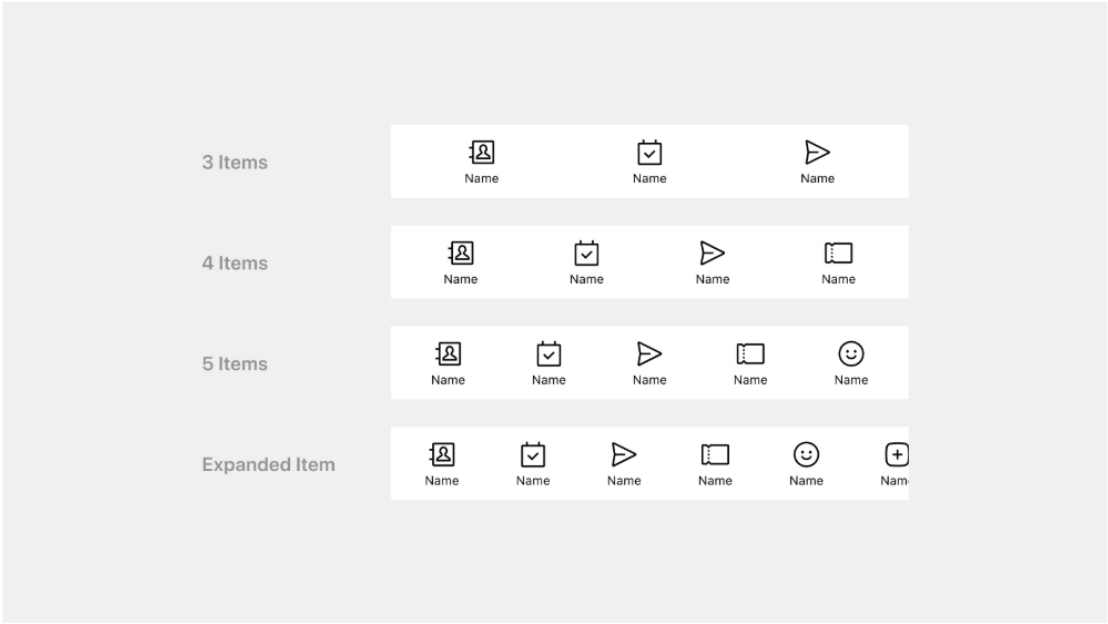

Use an icon button group for multiple icon buttons.

Size

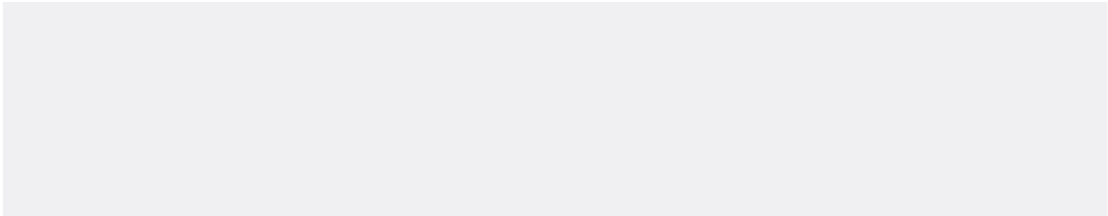

Two sizes available, depending on the size of icon button.
It's recommended to use one of the provided sizes.

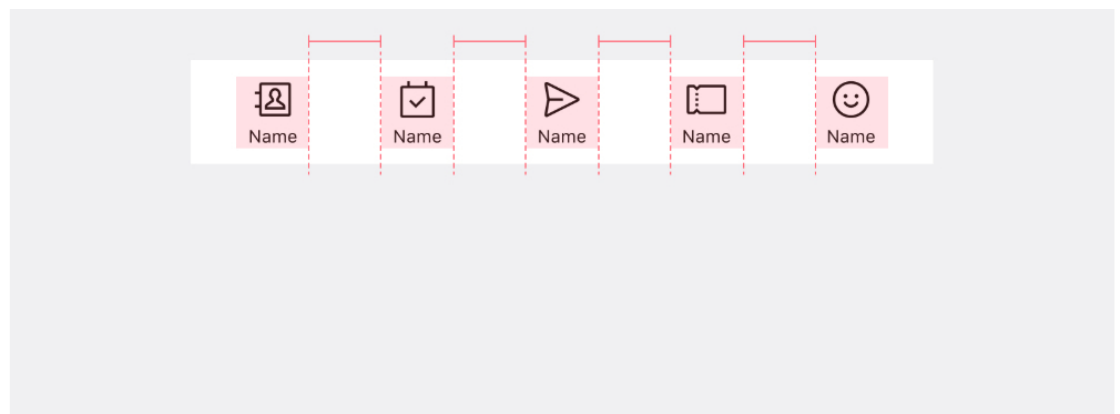

Number of Items

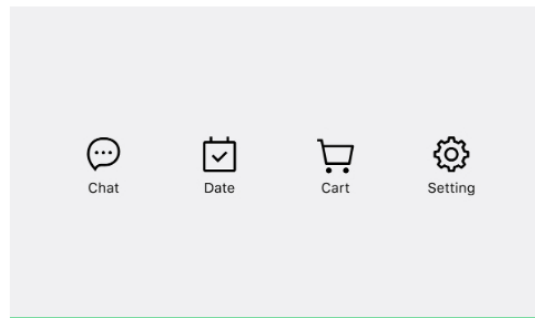

Select the number of icon buttons to include. Choose at least 3 icon buttons up to 5 icon buttons.
Consider using the expanded option for 6 icon buttons or more.

Usage

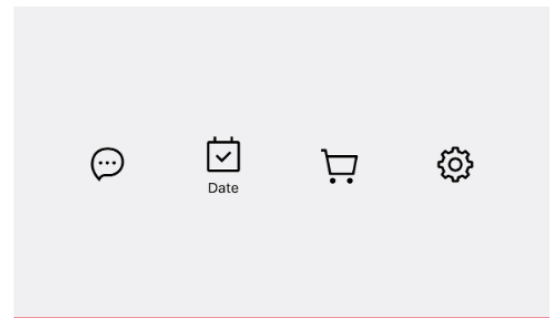

There should be the same spacing between buttons.

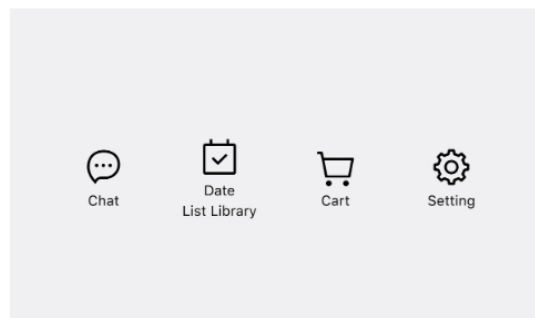

Do

Text should be simple enough for anyone to understand.

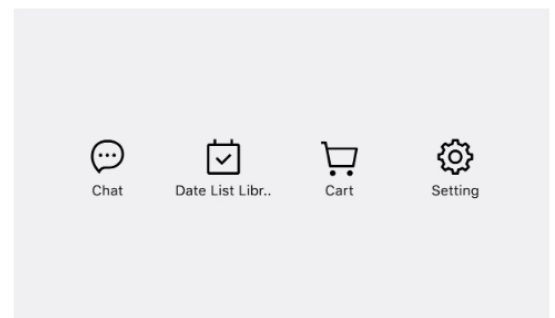

Don't

Don't mix with icon only buttons.

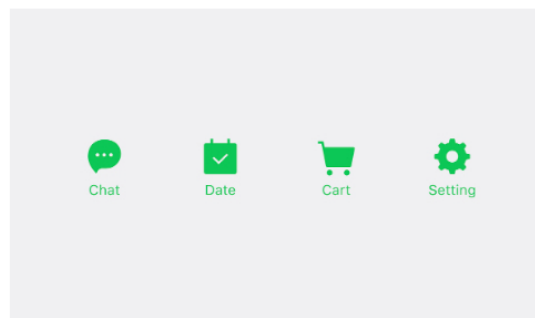

Caution

Pay attention not to have a line break in the label.

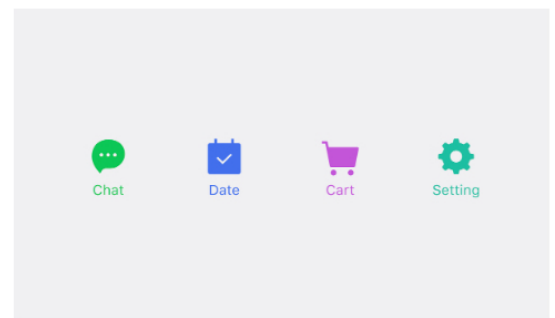

Don't

Don't use a short form for the label as it can be unclear.

Do

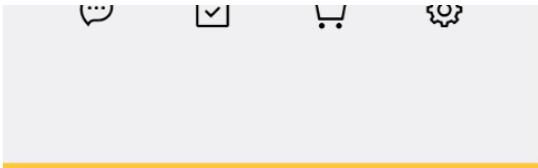

Recommend using a single color and style for the icon button group.

Caution

Take heed of using multiple colors for the icon button group as users could find its activation status confusing.

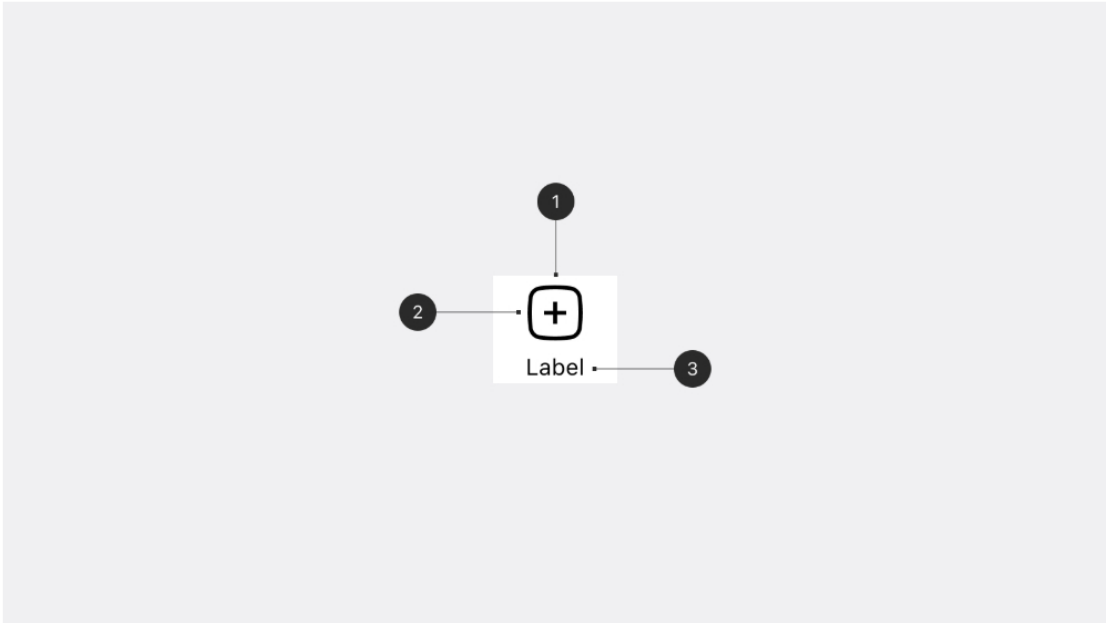

Caution

Ensure if each icon clearly represents its meaning without a label.

Design Specs

Styles

Element	Properties
1 Container	- The width is automatically adjusted to the length of the text (3). - Color: Changeable - Hover: Opacity: 70% - Pressed: Opacity: 50%
