Image Grid

Use this menu to align images in a list style.

You can configure all pages of image grid after combining components for each type as desired by the designer.

Anatomy

1. Image area

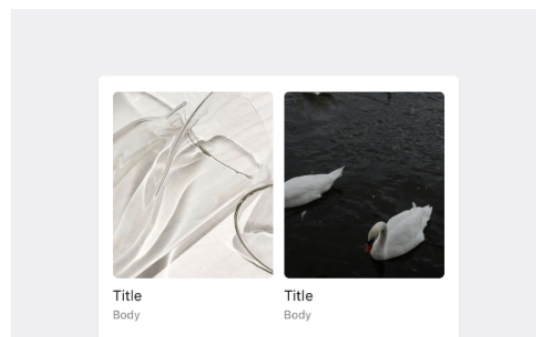

This is an area where images are located.

2. Text area(Optional)

This is an area where title and description of the image are located.

3. Icon area(Optional)

Icons are used to provide information on the image. Icons with motion may be included depending on the situation.

Don't

Image grids do not contain text below the image.

Card

Further details regarding the card are available in Card.

Types

The types are classified into Basic and Multiple according to the image's alignment configuration.

Basic Type

Common

Two square image cards are displayed side-by-side. Each card has a placeholder image (a person on a staircase and a close-up of fabric), a 'Title' label, and a 'Body' label. A small square icon is in the top right of each image.

Controls

Type

- ☒ Sqaure
- ☐ Rectangular

Column

- ☒ 2Column
- ☐ 3Column
- ☐ Medium+Small
- ☐ Small+Medium

This is an appropriate configuration for one row with a specific height.

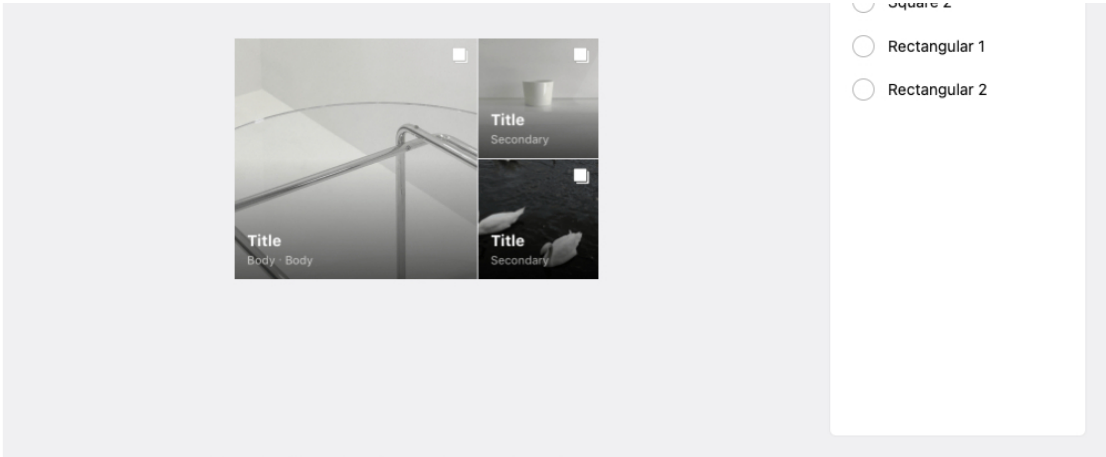

Multiple Type

Common

A large, empty light gray rectangular area intended for demonstrating multiple type configurations.

Controls

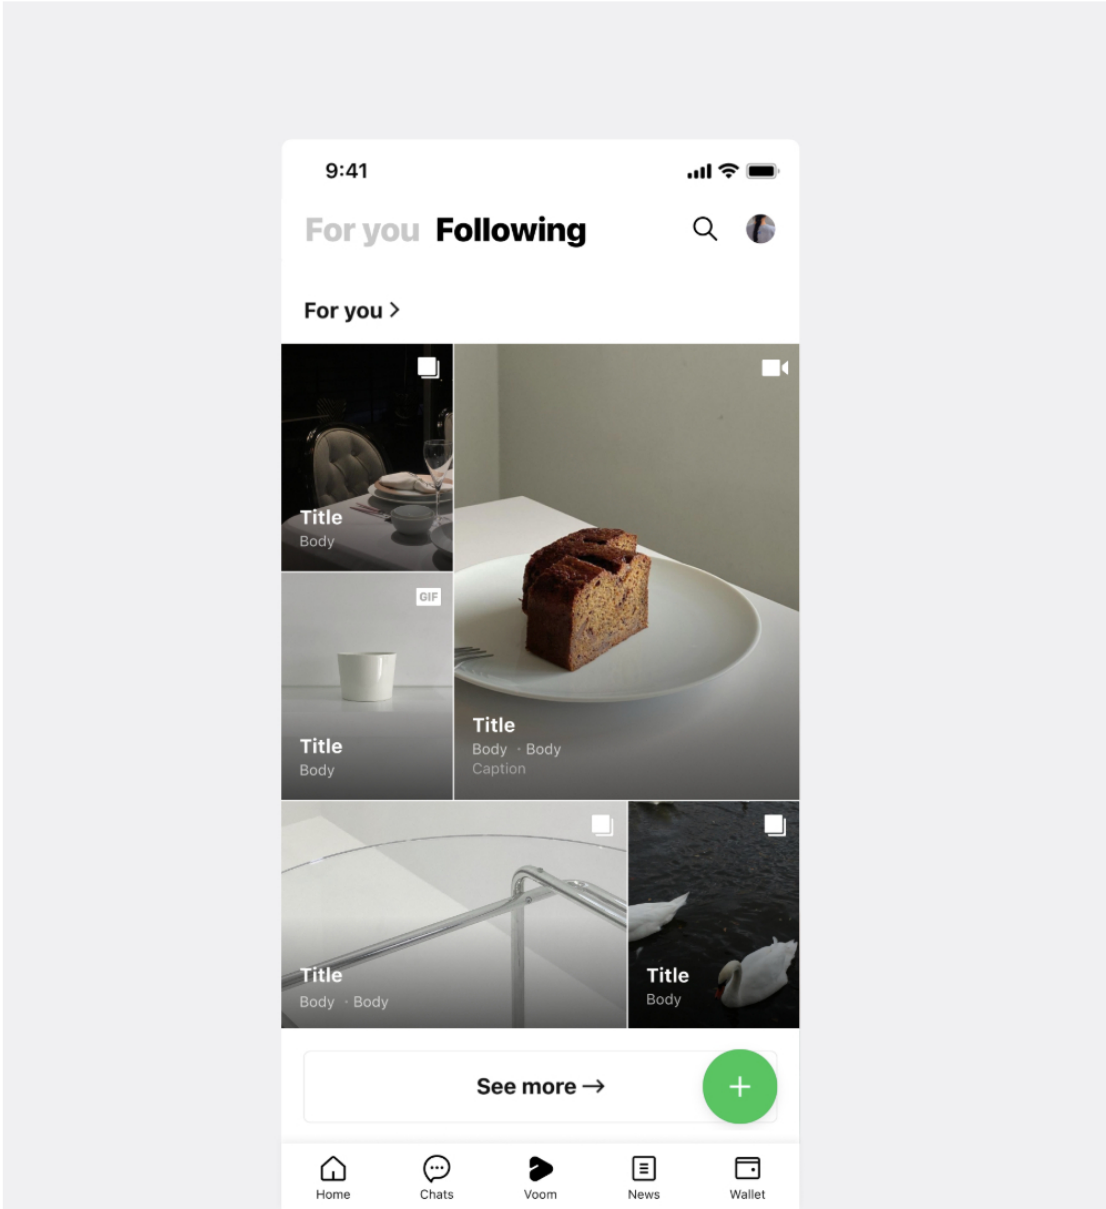

- ☒ Square 1
- ☐ Square 2

This is an appropriate configuration for various layouts by merging grids.

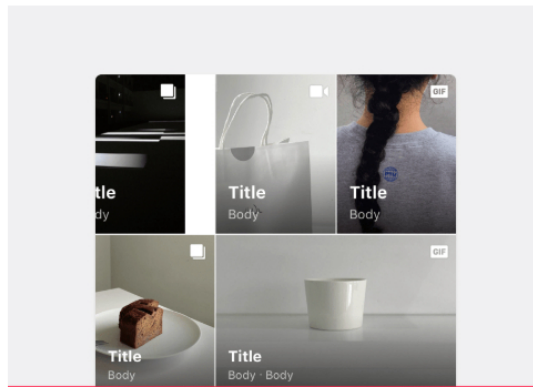

Usage

General Usage

Generally used for places that display multiple images.

Actions & Interaction

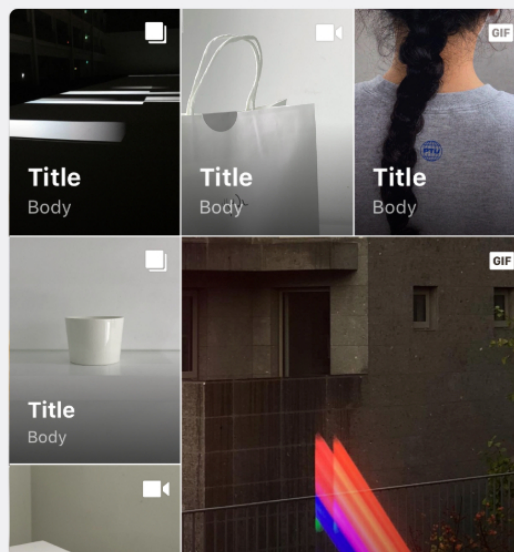

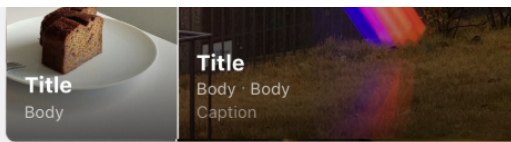

Don't

The gesture of swiping on an individual image is not allowed.

Placement

Modular configuration

- The configuration is three rows by default.
- Configure by combining one component in succession. (e.g. Basic + Multiple)
