List Header

A list header represents the list section. Place at the top of a group configured as a list.

Anatomy

1. Title area

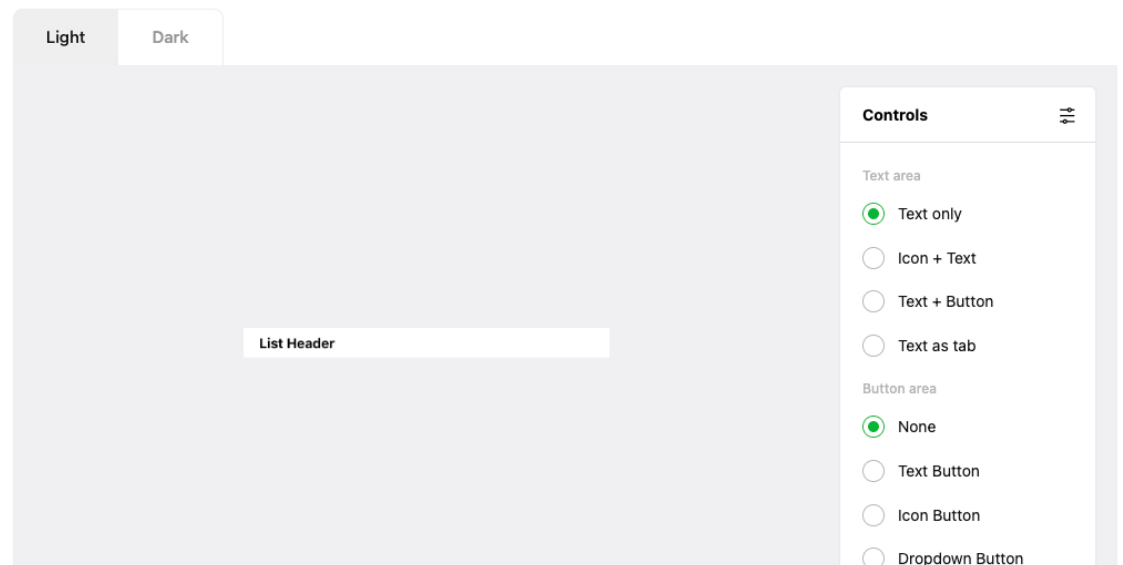

This is an area where the header title that represent the list is located.

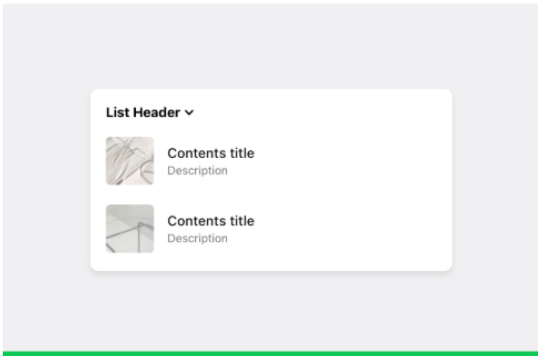

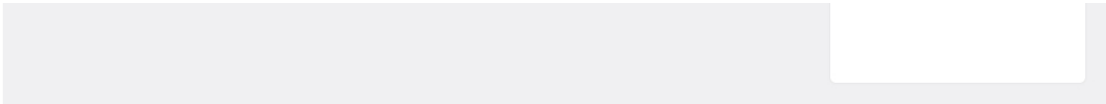

2. Button area (Optional)

An icon button or a text button is located on the right.

Types

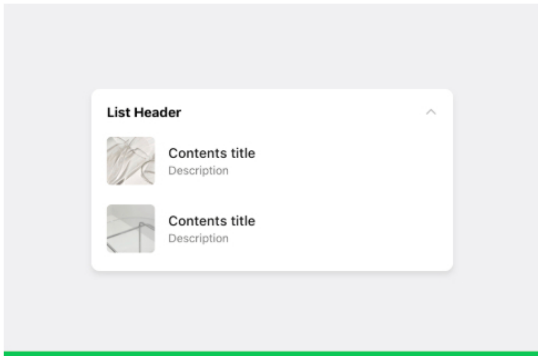

A list header component is provided as a single component. Refer to the following for the configuration of the title area on the left and the configuration of the button area on the right.

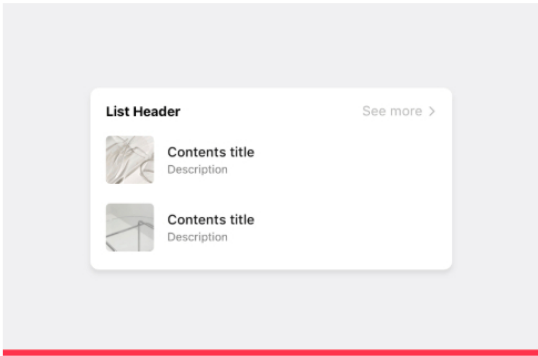

Do

Sorting or filtering functions can be provided by using the '▼' icon in the Title area.

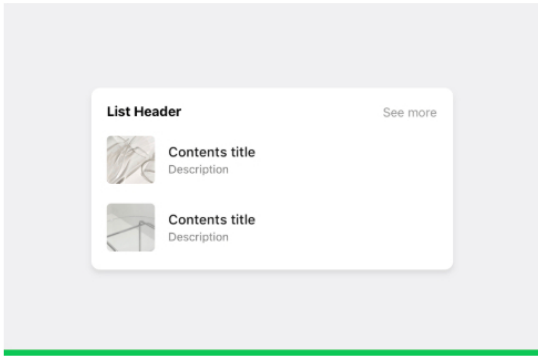

Do

Provide expand and collapse features in the button area on the right.

Don't

It is not recommended to mix the See more text button and icon, which means more content. This is to maintain consistency within the LINE messenger service.

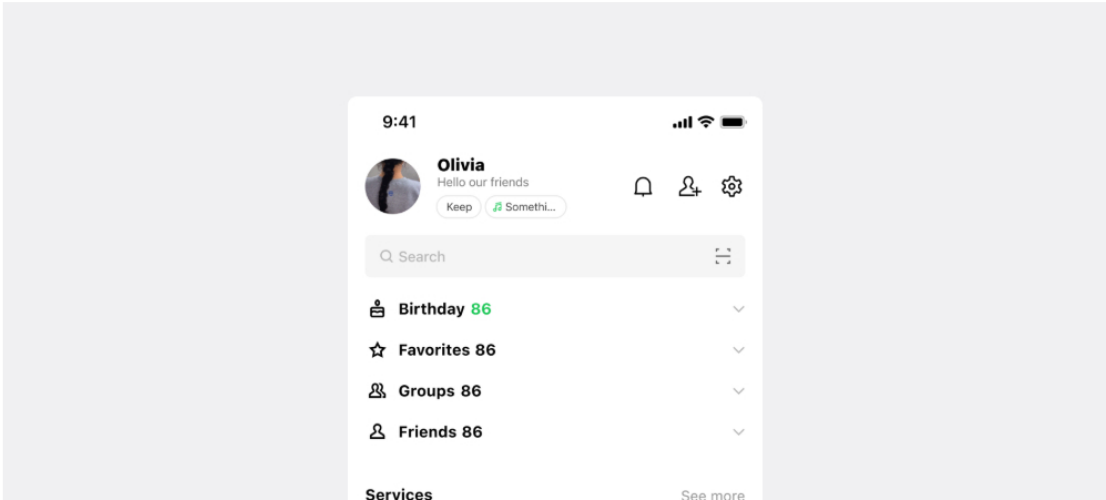

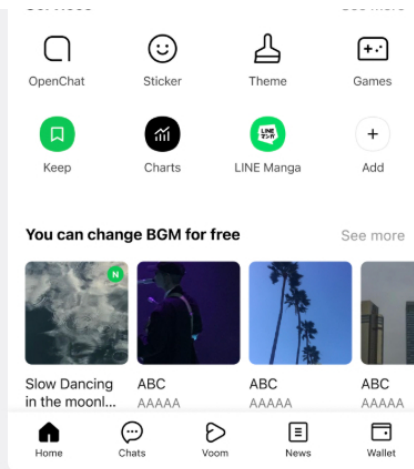

Do

It is recommended to unify the text display within the LINE messenger service as much as possible for similar features.

Usage

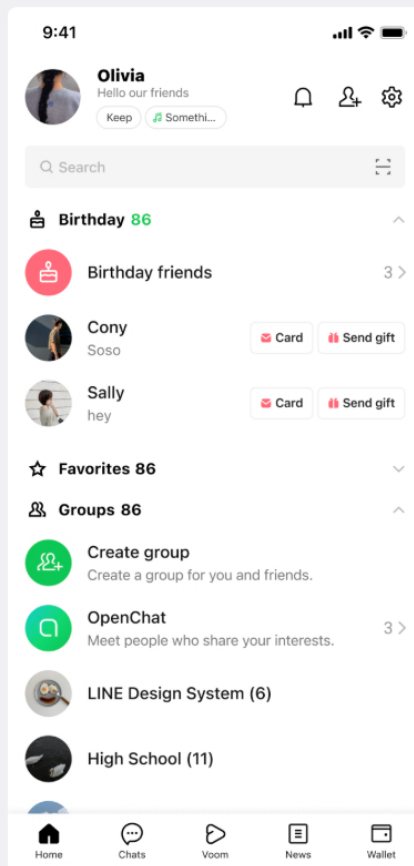

Home tab

Used as a header of the service list module and the content module.

In List

Located above the List contents.
