Systems

- LIFF View

Two types are available: linear and circular.
Use an appropriate type depending on the context and components that are used with the indicator.

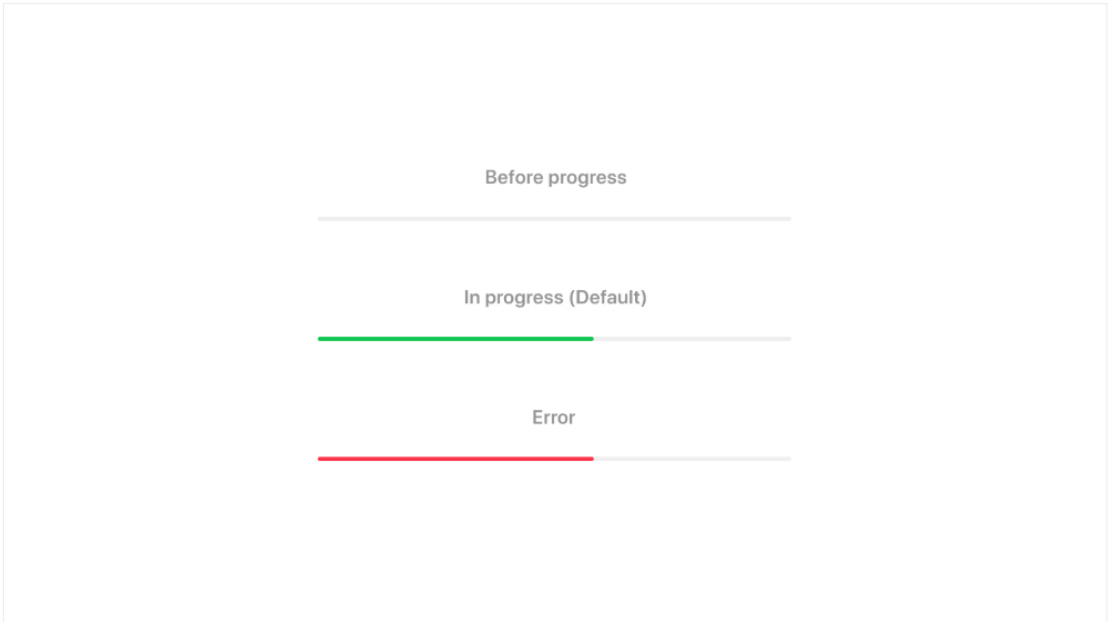

Linear Type

You can display the loading status in a linear indicator.
Use determinate and indeterminate types to show the progress and status of loading.

Type	Description
Determinate	Determinate-type indicators show the progress from 0% to 100%.
Indeterminate	Indeterminate-type indicators do not show the percentage, but keeps running until loading is complete.

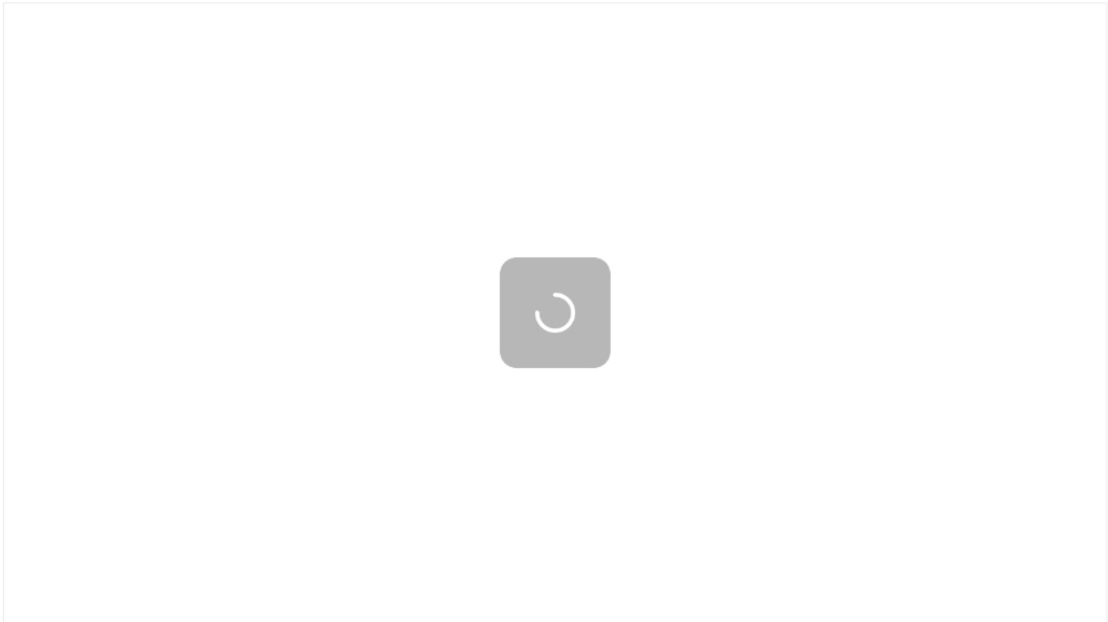

States

Available in three states dependina on the proagress.

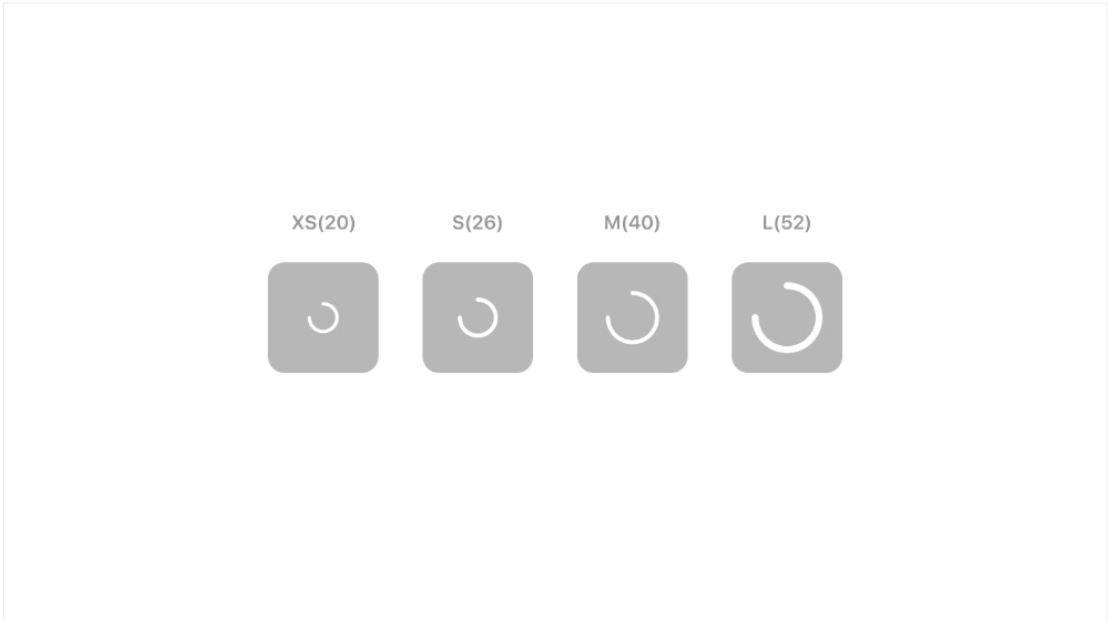

States	Description
Before Progress	Before loading starts, no indicators are displayed. Only available in the determinate type.
In Progress (Default)	Loading is in progress.
Error	Loading stopped due to an error.

Circular Type

You can display the loading status in a circular indicator.
Only the indeterminate type, which does not show when it will be completed, is available.

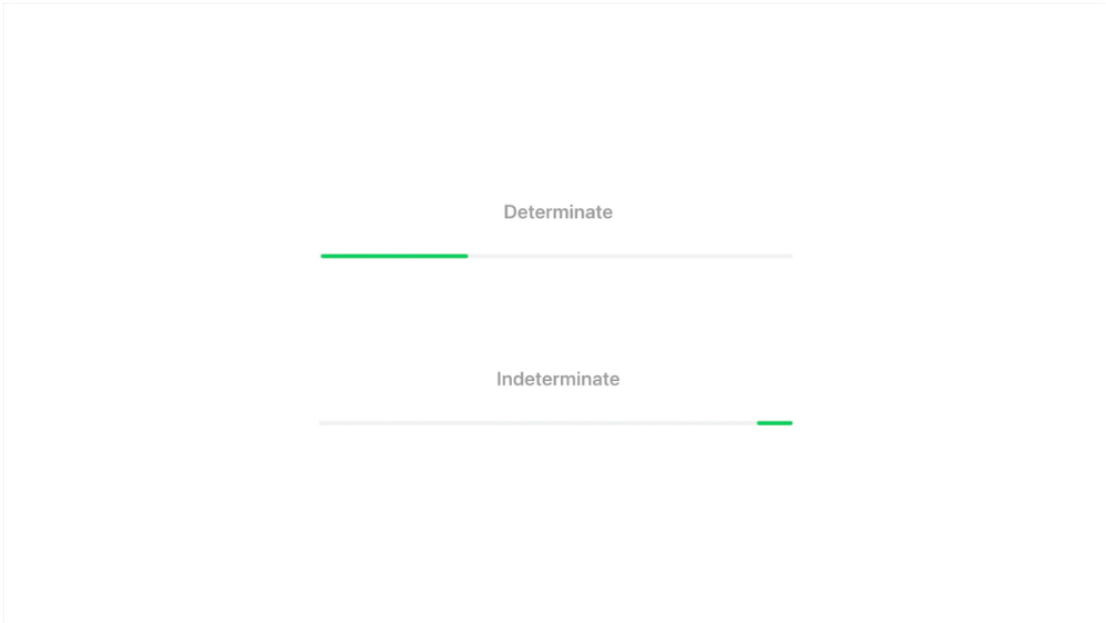

Size

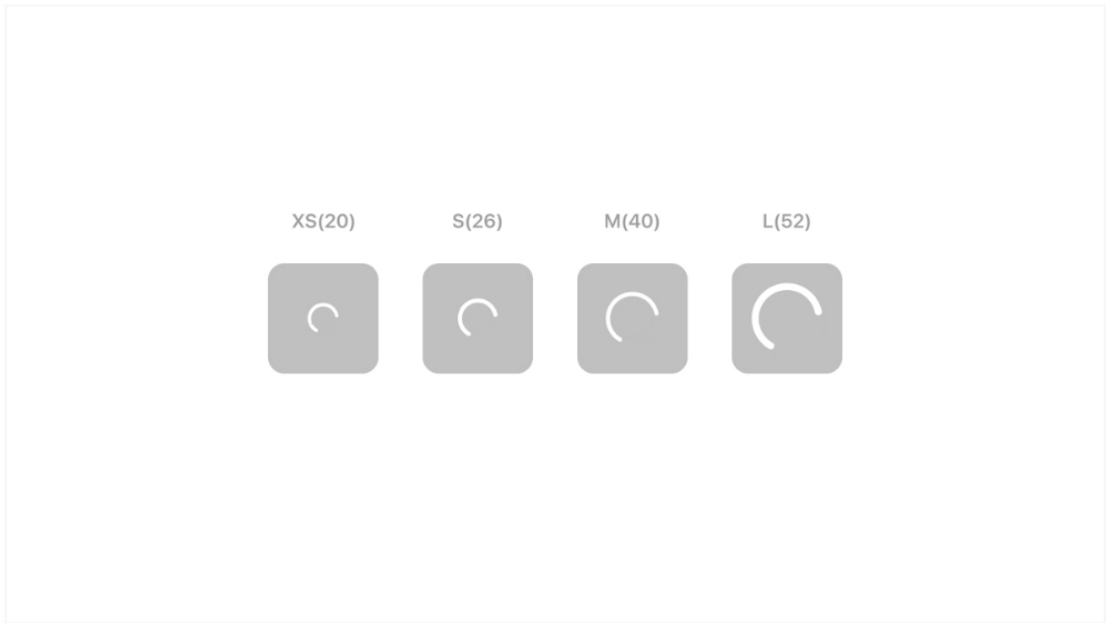

Available in four sizes.
Choose an appropriate size depending on the context.

Behavior

Linear Type

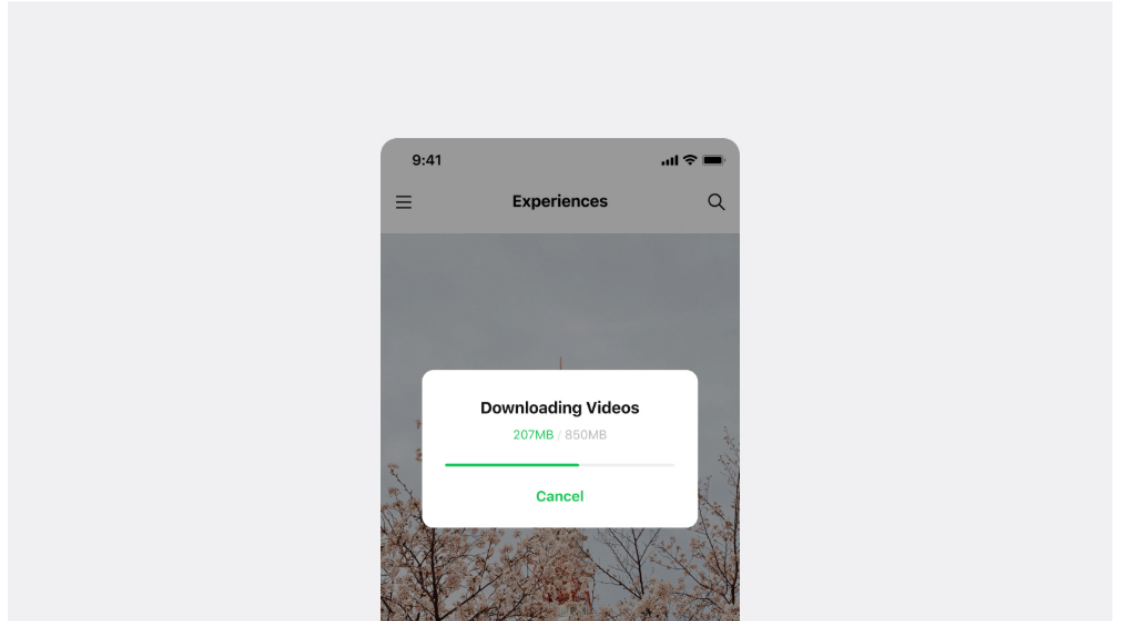

Circular Type

Usage

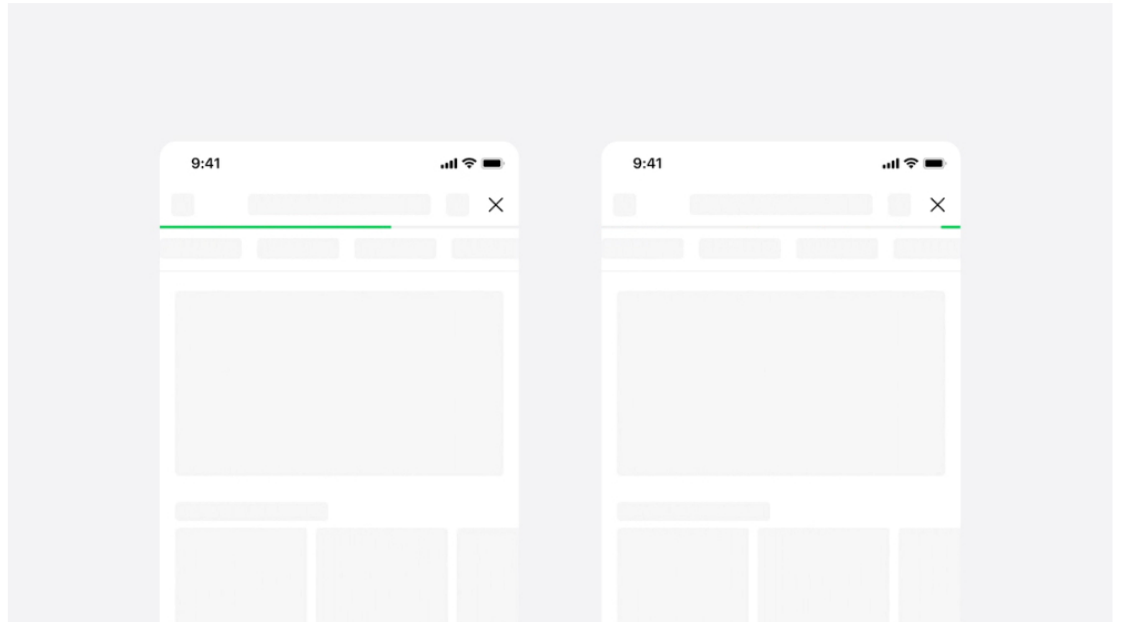

Linear Type

File Download

- Use this to indicate the file download status.
- You can place it above the dimmer (in a pop-up) or within a page.

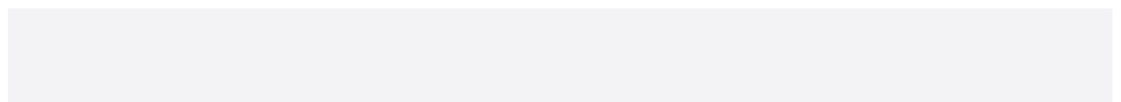

Page Loading

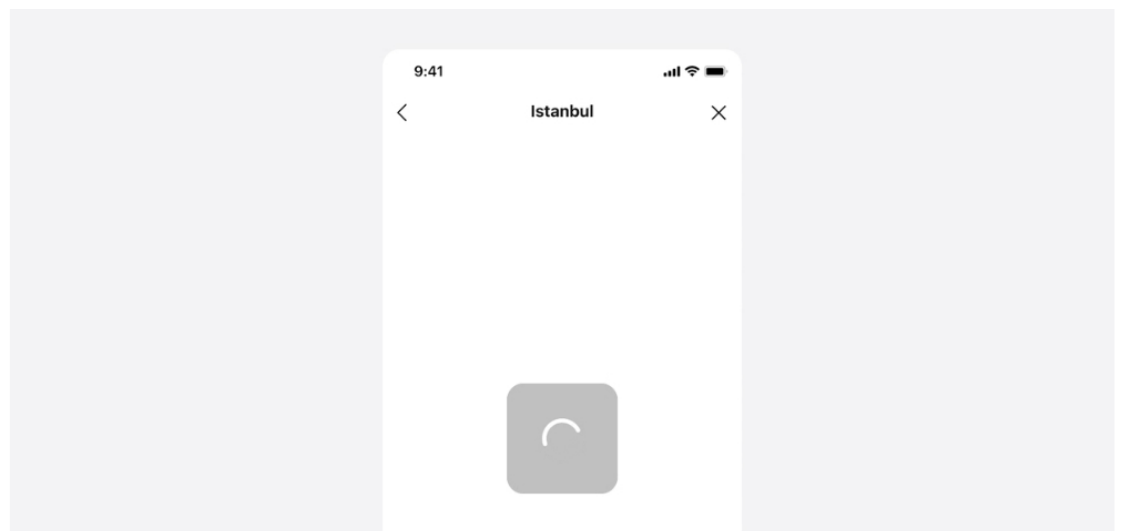

- Use this at the lower side of a top navigation element when loading a page.
- You can also use it with a skeleton pattern.
- See [Skeleton Behavior](#)

Circular Type

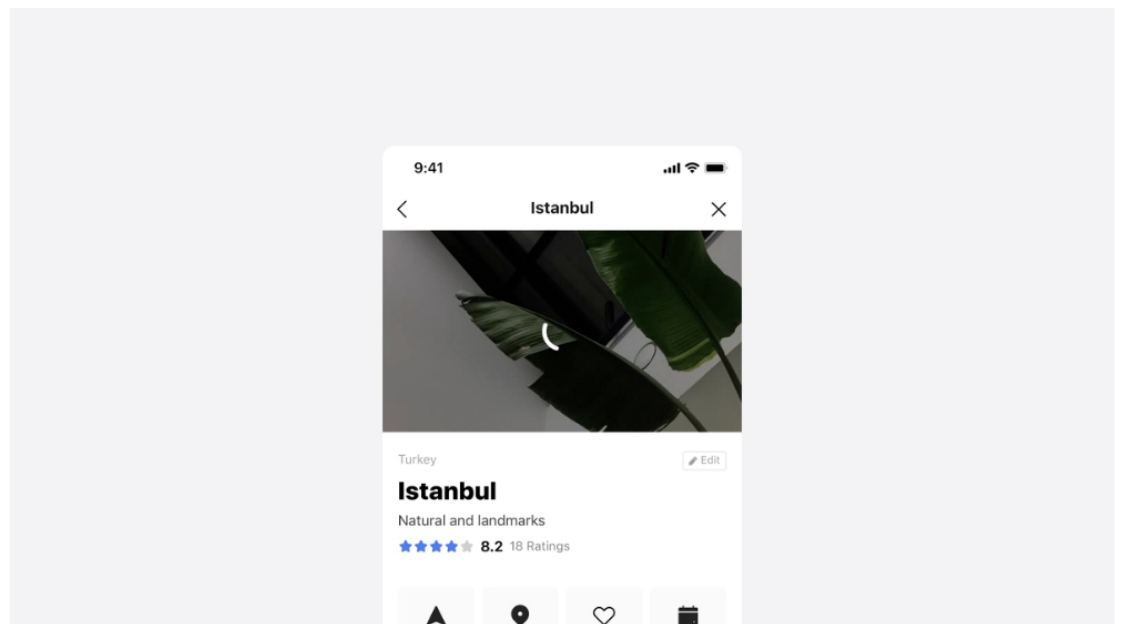

Page Loading

- Use a circular type when you cannot use a skeleton.

Component Loading Status

- Use this to show a loading status for a specific component.

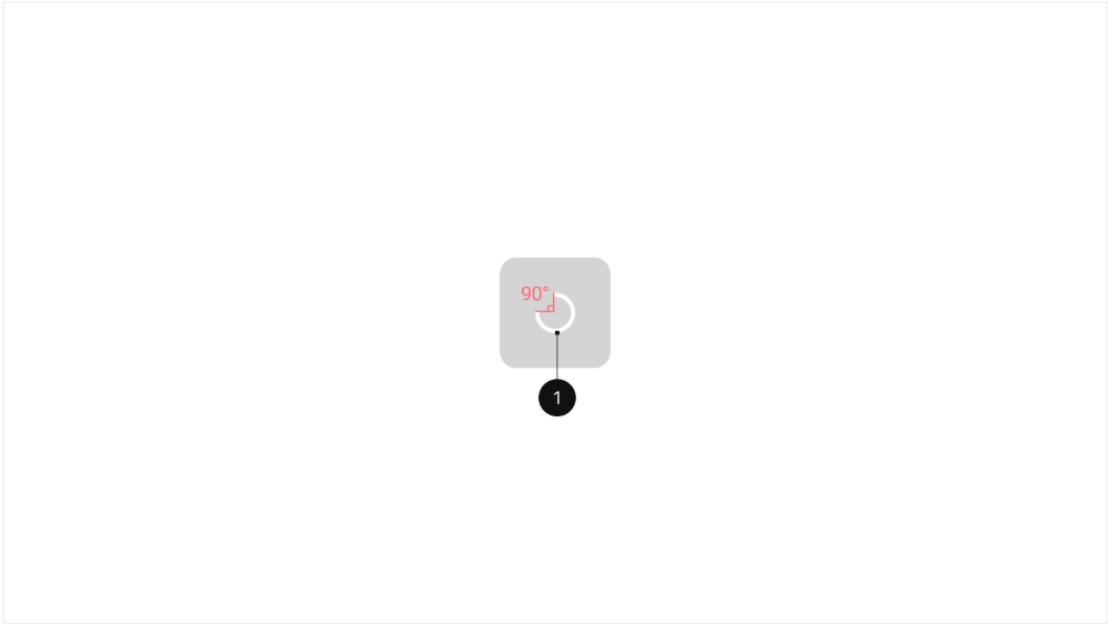

Design Specs

Linear Type

Element	Properties
1Track	- Size - Width: Changeable - Default: 100% - Height: Unchangeable - Color: Changeable - Default: ldsg-color-gray-200
2Indicator	- Size - Width: Unchangeable - Height: Unchangeable - Color: Changeable - ldsg-color-brand-primary

Circular Type

Element	Properties
	- Size - XS (20) - S(26) - M(40)

1 Indicator

- L(52)
- Border Width: Unchangeable
 - XS (20) : 2.5px
 - S(26) : 3px
 - M(40) : 3px
 - L(52) : 5px
- Color: Changeable
 - Default: ldsg-color-white
