## Behavior

### Selecting and Switching Segments

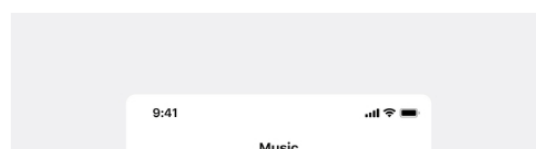

## Usage

### Do

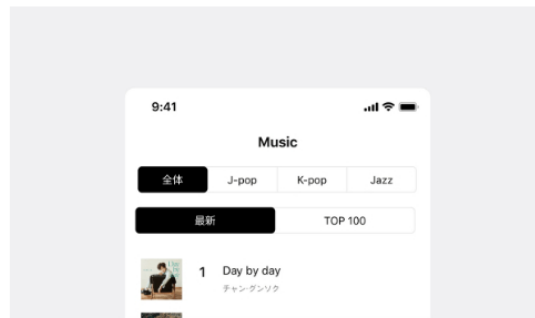

When using a segmented control and tabs together, place the segmented control under the tabs.

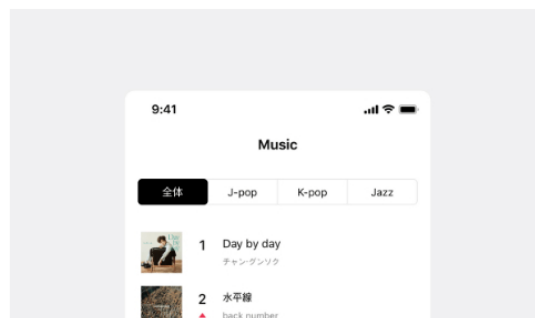

### Don't

When using a segmented control and tabs together, do not place the segmented control at the top.

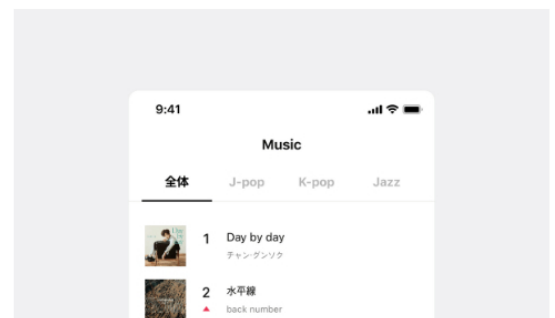

### Don't

Do not use two segmented controls together.

### Caution

If you want to use a segmented control alone, we recommend you use tabs instead of the segment control.

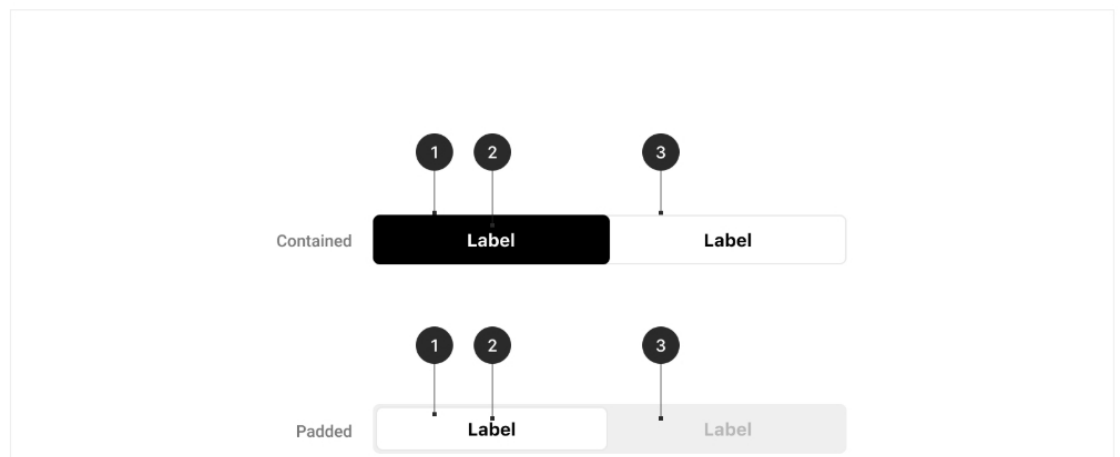

### Do

If you want to use segmented control alone, we recommend you use tabs instead.
