Systems

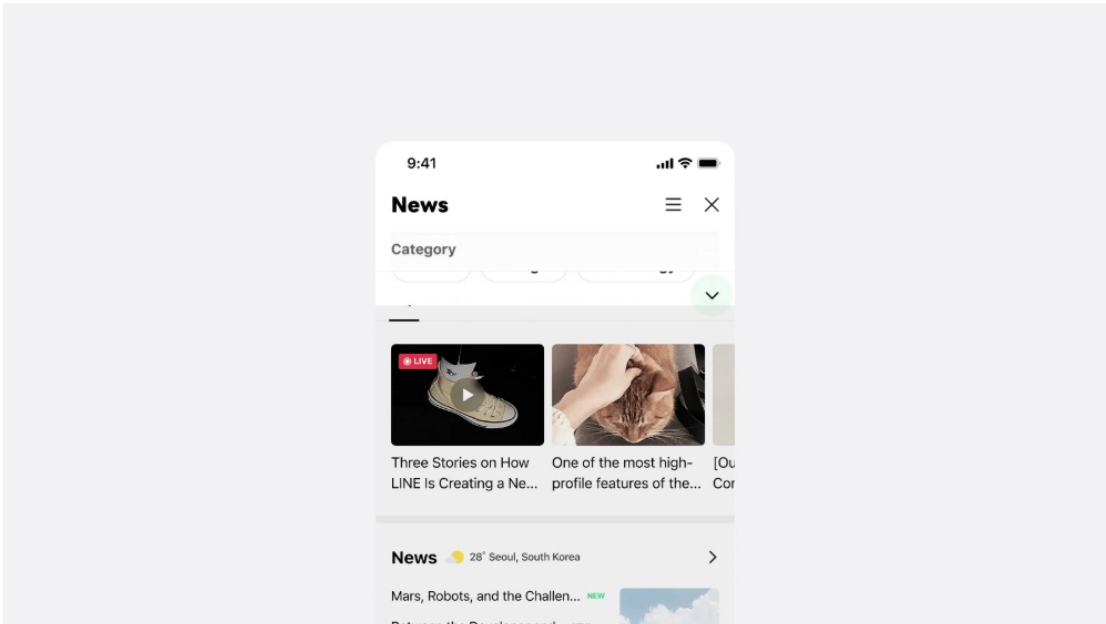

- LIFF View

The Selected and Unselected states are available and the selection states cannot be duplicated.

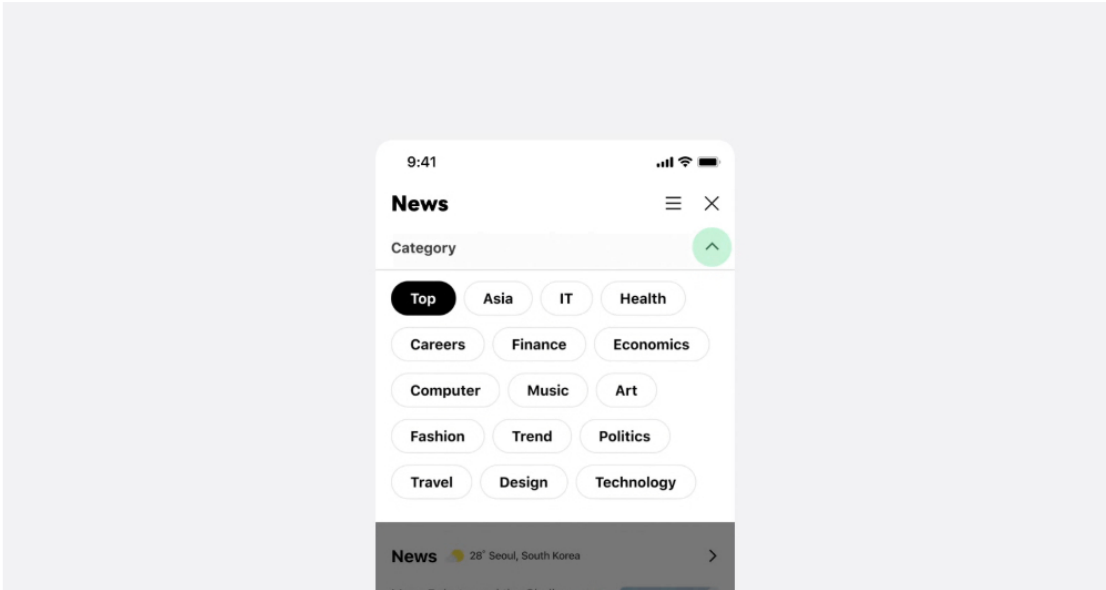

Behavior

Open Extension Tab List

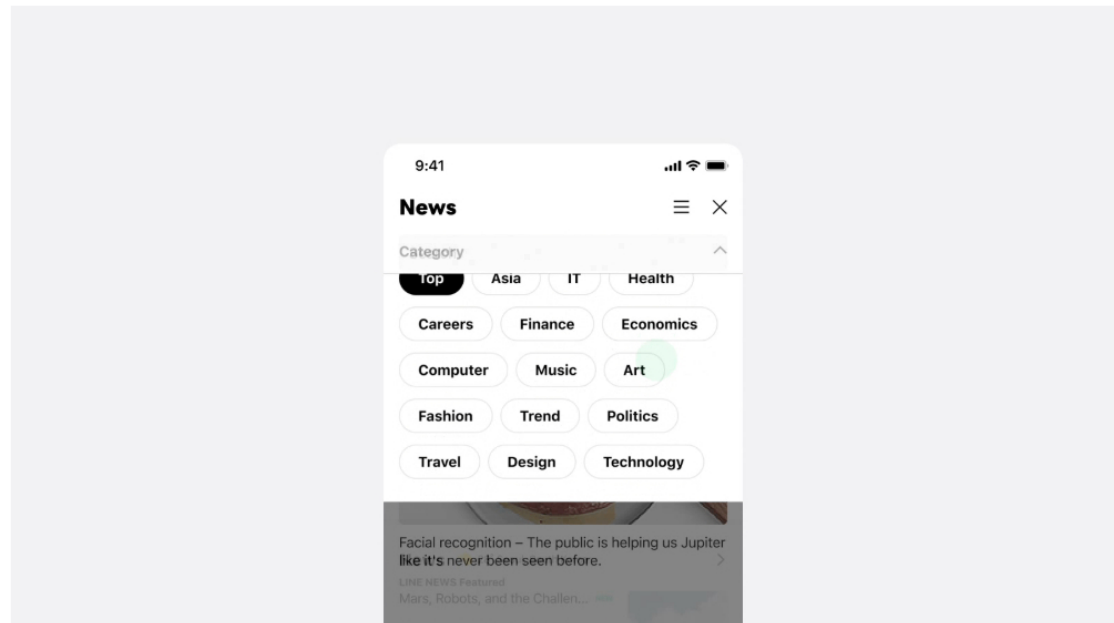

Users can use the expand button on the flexible tab to open a component.

Close Extension Tab List

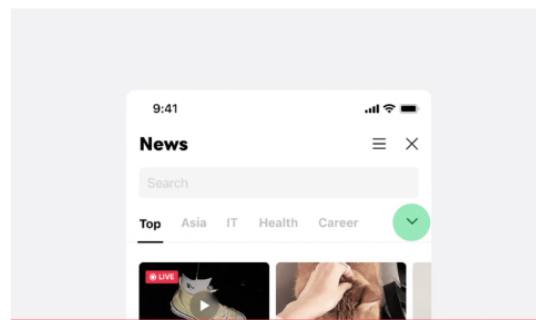

Users can tap the collapse button or the dimmed area at the bottom to close a component.

## Moving Tabs

When a list item is selected, the expanded tab list is closed and the selected tab is focused. The position of the focused tab is decided according to the flexible tab focusing rules.

## Usage

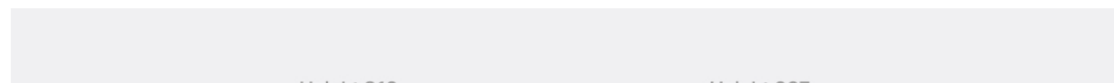

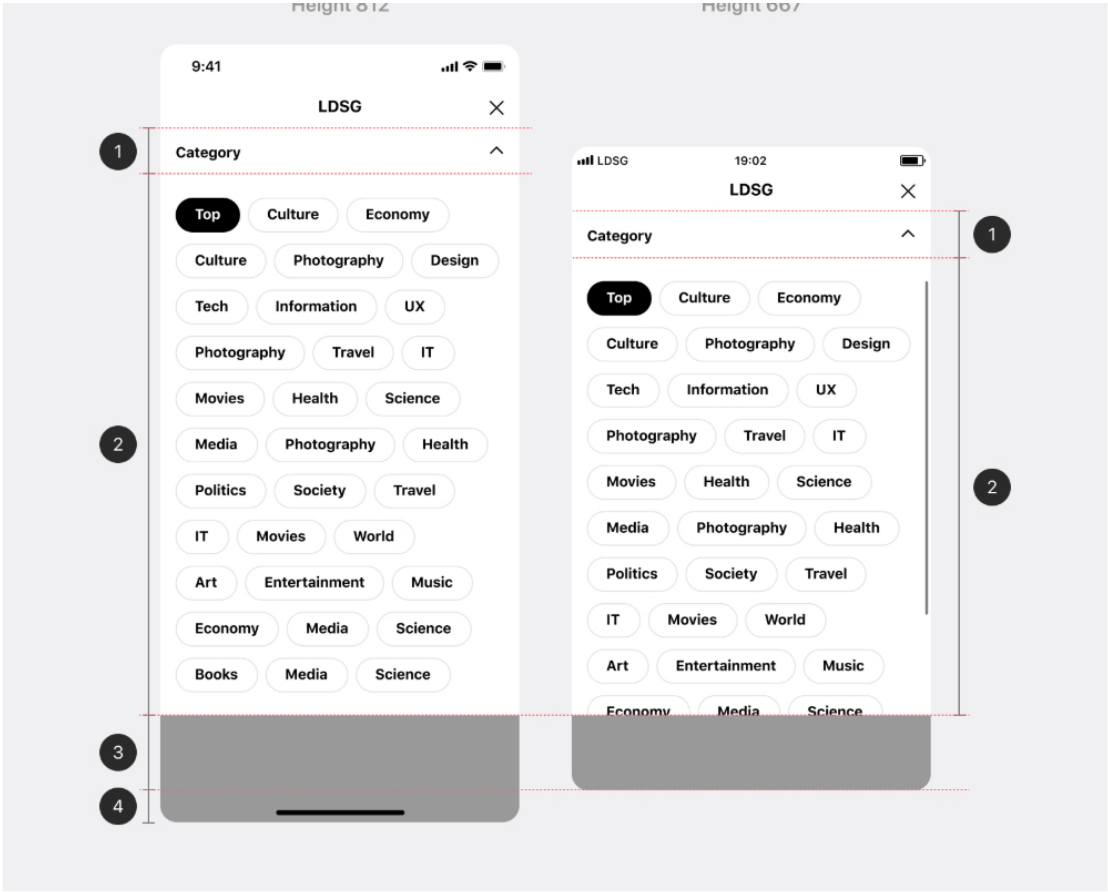

### Don't

Do not use the expanded tab if there are only a small number of tabs.

## Sizing

### Height

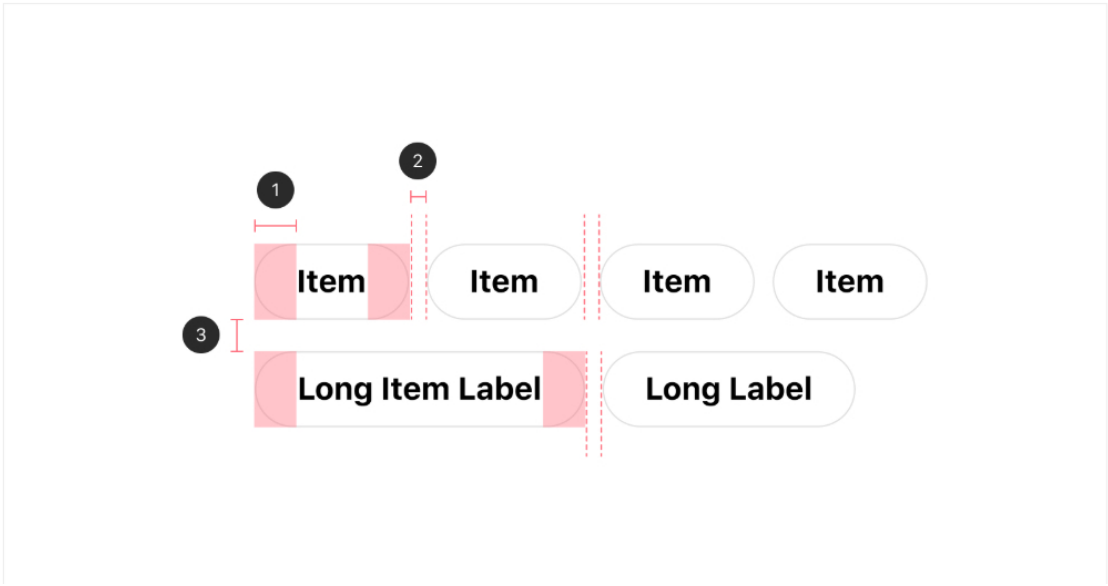

| Element                      | Properties                   |
|------------------------------|------------------------------|
| 1 Tab Area                   | Height: Flexible             |
| 2 List Area                  | Height: Unchangeable (Fixed) |
| 3 Dimmed Area                | Minimun Height: 78           |
| 4 Home Indicator (Safe Area) |                              |

Width

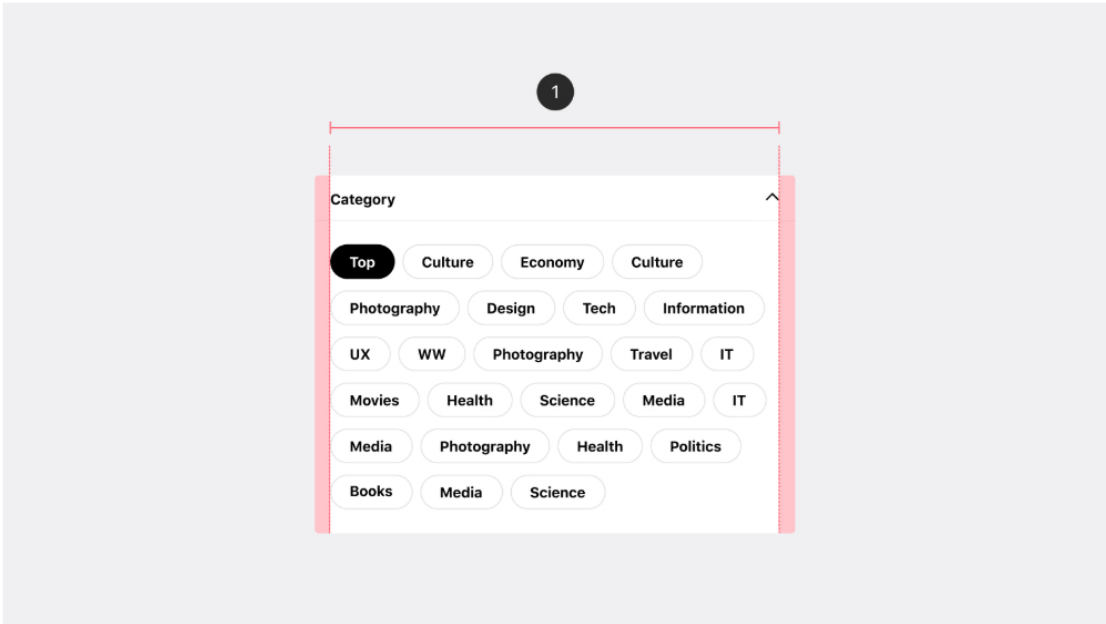

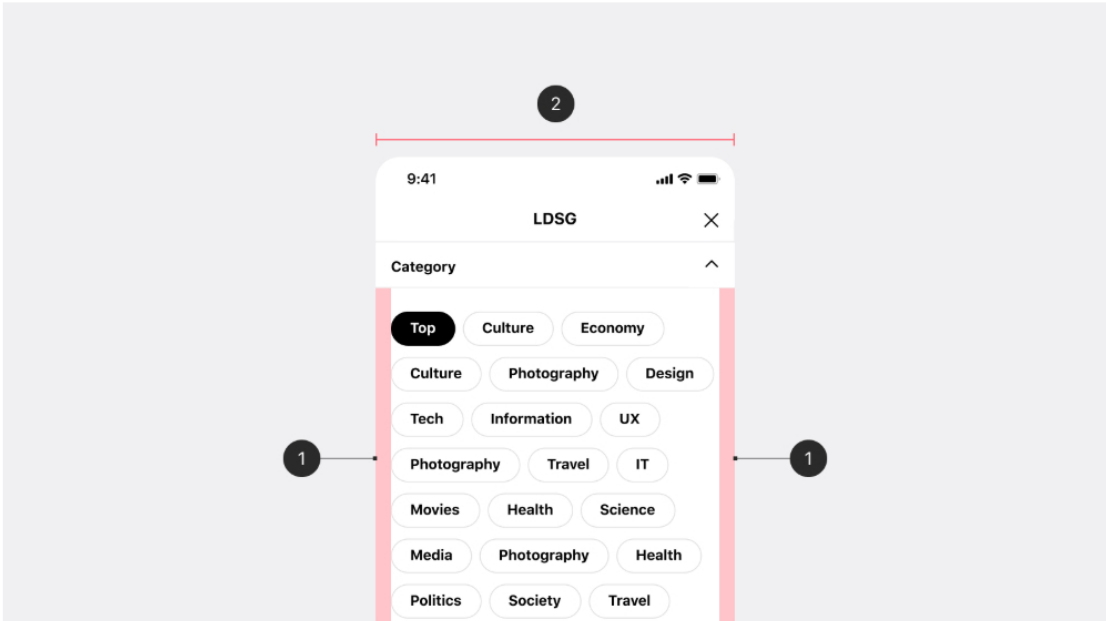

Item Rows and Column

The container becomes larger or smaller according to the text length. The space between the items has a fixed value (12), and the space between rows increases as the container becomes larger.

| Element                       | Properties                                                                                          |
|-------------------------------|-----------------------------------------------------------------------------------------------------|
| 1 <b>Padding</b>              | Value: Unchangeable<br><ul style="list-style-type: none"><li>• Left&amp;Right Padding: 20</li></ul> |
| 2 <b>Margin Between Items</b> | Value: Unchangeable<br><ul style="list-style-type: none"><li>• Gap: 8</li></ul>                     |
| 3 <b>Margin Between Rows</b>  | Value: Unchangeable<br><ul style="list-style-type: none"><li>• Gap: 12</li></ul>                    |

Container Size and Break Rows

The left and right margins of a container are fixed (16), and one of the items will be sent to the next row when the row becomes longer.

|   | Element                   | Properties                                                                                   |
|---|---------------------------|----------------------------------------------------------------------------------------------|
| 1 | <b>Padding</b>            | <ul style="list-style-type: none"><li>• Value: 16, Unchangeable</li></ul>                    |
| 2 | <b>Content Area Width</b> | <ul style="list-style-type: none"><li>• Flexible</li><li>• Screen Width - Paddings</li></ul> |
